

Canteen Facilities:

College students have always been known to thrive on snacks such as vada pavs and samosas. But with growing awareness about health consciousness, students are now carrying healthy home-cooked meals to colleges in a bid to avoid the oily foods.

- ✓ The students are provided with the hygienically prepared excellent quality food in a common mess hall.
- ✓ The campus has the canteens for snacks/fast food/refreshments.
- ✓ Instead of being outsourced, the College canteen employs staff and makes decisions on menus and pricing to benefit all students.
- ✓ By promoting better student health the College hopes to inspire our students to be healthy and happy about themselves.

In keeping with the College's Healthy Foods Policy, the canteen provides healthy food options for the wide range of diverse cultures.
